Best Attractive Font for a Resume

Every one of us has a desire to do work in a good and top-listed company with a high package. But for all this, you will need a perfect resume to impress selectors. So, you can understand that an impressive resume is must want thing here. One thing that attracts the viewer is the font of the resume. So here we are discussing How Font is important? and also the best fonts for making the resume more attractive.

Why is font more important in a resume?

The resume is always used for professional or official use. So, while creating a resume the person should always think about the good font and size of the text. The font should be selected as the text in the resume attracts the viewers. It must look attractive and readable. It is said that "Well begun is almost half done." So, if your resume impresses the viewers then it increases your chances of selecting by 50%. You must have good, attractive, and professional fonts in your resume.

Best 5 fonts for resume

Recruiters spend hours in interview and views thousand of resume. So, a good font attracts him and he/she read his resume with more positive vibes. So here are the best 5 fonts we have mentioned which will be liked by everyone.

1.ARIAL

It is largely considered and the first choice of people all around the world. So, there are high chances that recruiters are familiar with this font. Arial font has thick and clean lines so it makes it easy to read.

2.Cambria

It is considered as one of the traditional options but then also a resume expert at Zesty refers to this font for resumes and cover letters.

3.Garamond

Garamond font is a great choice for academic resumes and advertisements. It is the best old-style font for writing a resume.

4.Helvetica

This font appears on various brand logos. May this font attract recruiters? It is professional and lighthearted.

5.Calibri

Professional resume creators, advocates, and website creators use this font. It is in the default font setting in Microsoft word. So can be also your choice to make your resume more awesome.

More Font Tips

Rather than font, there are also some small things you should consider while creating your resume

Font size- Your resume must be inconsistent font size. Your name, qualification and other some points can be bigger. If you are writing with 10 then this key point is in 20, so be free to double the size because it will attract viewers and may impress them.

Italic vs bold-Both making text bold or italic gains attention. But Bold must be first rather than making text italic because bolding get a perfect look for text.

Font colors-Font color should be consistent all over the resume. It is a professional or official document so the color should be black or grey only.

Pairing fonts- You must use only two fonts all over the resume. Using more than two fonts can make your resume aimless or less impressive.

Fonts in ATS Resume- You can use common text types like ARIAL/Times New Roman for ATS Resume. Don't add any type of picture or template inside your resume.

Final Conclusion

 You must use impressive and efficient fonts for your resume so that they will look more awesome and attractive. You may use 2 fonts at max. in the resume body. You can select the font for you from the best 5 mentioned above. All of them will provide you best resume.
